We would like to talk to you all about what the GKM Lesson Learned Group is doing and ask for some assistance on the following issues:

1. Add critical EPA interviewees to our list for each region.
2. Help identify outside agency contacts that we would like to interview (CO and other State agencies Tribes, Coast Guard, etc.).
3. Help schedule the interviews by groups (some individuals) for the beginning of December. Interview in R8 would be F2F and Regions 6 and 9 would be by VTC or Adobe Connect...would need assistance arranging this.
4. Some groups like the data group we would like to do cross region and do all three regions together
5. Need help obtaining certain documents

We will be sharing interview questions with you before the interviews/LL sessions occur. Below is the current list of interviewees that are identified by Region...we will use this to begin the process of coming up with the final list with your input. We will be focusing on the first month of the response. We will be looking at the following general issues:
